Manufacturing features include enhanced BOM management, serialized inventory tracking, and automatic generation of purchase orders based on minimum stock levels and re-order quantities. (*See www.peachtree.com/disclosures for details.)

100-word description

Peachtree by Sage Premium Accounting for Manufacturing 2010 Multi-User Value Pack provides access for 5 licensed, named users* with screen-level security and a clear audit trail, advanced accounting and analysis tools, manufacturing-specific features, 140+ customizable reports, and Crystal Reports 2008*. Manufacturing features include enhanced BOM management, serialized inventory tracking, and automatic generation of purchase orders based on minimum stock levels and re-order quantities, and the ability to create/track work tickets. Save time with simplified navigation, enhanced integration with Microsoft® Excel®, multi-tasking screens, and comparative budgeting. Peachtree Premium Accounting for Manufacturing 2010 provides the tools that small manufacturing companies want to improve their operations. (*See www.peachtree.com/disclosures for details.)

Target Markets

Peachtree by Sage Premium Accounting for Manufacturing 2010 Multi-User Value Pack accommodates up to 5 licensed, named users* for improved productivity with screen-level security. It's designed to help the owners of small manufacturing companies and large make-to-stock manufacturers better manage their operations. The product combines manufacturing-specific functionality with powerful accounting and analysis tools. Companies with complex BOM requirements appreciate the product's enhanced assembly management, which allows you to create BOMs with up to 300 components and track revisions. Track assembly activity using work tickets, so you can monitor progress and react quickly. Serialized inventory capabilities enable you to maintain detailed inventory records for tracking, costing, and warranty requirements. You can also buy and sell in multi-quantity units, establish minimum stock levels with automatic reorder quantities, generate manufacturing-specific operational reports, and much more. Peachtree Premium Accounting for Manufacturing 2010 comes with Crystal Reports® 2008* to provide even greater operational and financial analysis.

Peachtree Premium Accounting for Manufacturing 2010 Multi-User Value Pack couples user-friendly tools with robust functionality that appeals to manufacturers in any number of industries. It also offers company consolidation, which is ideal for customers managing multiple businesses simultaneously who want to merge data for overall analysis. All first-time Peachtree customers receive 30 days of free support* and a no-risk, 60-day, money-back guarantee, which guarantees satisfaction or refund of purchase price less any rebates paid. Upgrading customers receive one free support call. (*See www.peachtree.com/disclosures for details.)

Why Choose a Peachtree Solution?

If you view accounting as a tool that can help you make better decisions rather than just a necessary chore, Peachtree by Sage is the perfect choice for you. Peachtree is designed for people like you who are dedicated to getting the numbers right, so you can truly understand how your business is performing. Peachtree is a comprehensive solution based on real, double-entry accounting principles with module- or screen-level security, audit trails, and automatic accounting checks. You get the accuracy and control you need to improve results.
