100 word description

Ideal for multiple users accessing networked data, Sage Timeslips 10-Station Edition enables businesses to easily and efficiently manage the time and billing cycle. Easy to learn and use, Sage Timeslips helps professionals capture time quickly and accurately for greater productivity and increased revenue. It integrates with popular accounting software like Sage Peachtree and QuickBooks®, key practice management solutions like Time Matters® and Amicus Attorney®, and Microsoft® Office solutions such as Outlook® and Excel®. Sage Timeslips reports present critical information to make better decisions offers simple bill creation and seamless payment tracking and improved bill access.

Target Market

An industry leader for more than 20 years, Sage Timeslips 2011 is the latest version of the time and billing solution and is ideal for any business that bills for its time, including sole practitioners and small- to medium-sized service firms with multiple timekeepers on a network. Easy to learn and use, Sage Timeslips helps professionals capture time quickly and accurately, leading to greater productivity and increased profitability. Sage Timeslips has remote access options and integrates with popular accounting software like Sage Peachtree and QuickBooks®, key practice management solutions like Time Matters® and Amicus Attorney®, and Microsoft® Office solutions such as Outlook® and Excel®. While Sage Timeslips can be used by any service industry, it is a leader in time and billing for lawyers and accountants. Sage Timeslips includes a variety of billing arrangements commonly used by legal and accounting professionals, including hourly, contingency, flat fee, percentage of completion, interim billing, progress billing, and more. Sage Timeslips not only improves the billing cycle, but also presents critical information that helps better manage the business.

Why Choose a Sage Timeslips Solution?

Having an effective time and billing system is essential to running a successful service business. To address this need, the first version of Sage Timeslips was developed more than 20 years ago, providing service professionals with an easy way to track time and print bills. Sage Timeslips quickly became a top-selling time and billing software among lawyers and accountants. Today, Sage Timeslips is used in dozens of industries, including consulting, architecture, graphic design, engineering, and many others. In fact, Sage Timeslips has such a complete set of features and customization options that it can be used by almost any business that bill's for services.

Sage Timeslips has been specifically designed to help professional service firms improve every step of their billing cycle, capture more billable time and expenses, and get the critical information about their businesses that will help them become more productive and more profitable. By enhancing Sage Timeslips products with mobile time-tracking solutions, electronic billing, and integration with business software, Sage Timeslips is an excellent solution for turning time into money.
